MATERIAL SAFETY DATA SHEET
UV Curable Insulator

SECTION 1: Identification of the substance / mixture and of the company / undertaking

1.1 Product Identifiers
Product name: UV Curable Insulator
Brand: DML DM-IN
Product codes: DM-IN-7010-S This MSDS is for product trials only
REACH No.: Not available. Annual tonnage does not require a registration.

1.2 Relevant identified uses of the substance or mixture and uses advised against
Identified uses: Scientific research and development, professional use only. Screen printing applications

1.3 Details of the supplier of the safety data sheet
Company: Dycotec Materials Ltd
Unit 12 Star West, Westmead Drive, Westlea, Swindon, Wiltshire SN5 7SW, UK
Telephone: +44 (0) 1788 814025
E-mail address: info@dycotecmaterials.com

1.4 Emergency telephone number
Emergency Phone No.: +44 (0) 7495 248908 Only available during office hours

SECTION 2: Hazards Identification

2.1 Classification of the substance or mixture
Physical hazards: Not classified for physical hazards
Health hazards: H302; H319; H315; H317; H335; H361f
Environmental hazards: H411

2.2 Label elements
Pictogram
Signal word: Warning
Hazard statements: H302 – Harmful if swallowed.
H319 – Causes serious eye irritation.
H315 – Cause skin irritation.
H317 – May cause an allergic skin reaction.
H335 – May cause respiratory irritation.
H361f – Suspected of damaging fertility.
H411 – Toxic to aquatic life with long lasting effects.

Precautionary statements:
P202 – Do not handle until all safety precautions have been read and understood
P280 – Wear protective gloves/protective clothing/eye protection/face protection.
P281 – Use personal protective equipment as required
P273 – Avoid release to the environment
P270 – Do no eat, drink or smoke when using this product.
P271 – Use only outdoors or in a well-ventilated area.
P272 – Contaminated work clothing should not be allowed out of the workplace
P264 – Wash with plenty of water and soap thoroughly after handling.
P308 + P313 – IF exposed or concerned: Get medical advice/attention.
P333+P311 – If skin irritation or rash occurs: Call a POISON CENTER or doctor/physician.
P301+P312 – IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.
P330 – Rinse mouth.
2.3 Other hazards
No data available

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.2 Mixtures

The full text for all Hazard Statements are displayed in Section 16.

SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

General information
Remove affected person from source of contamination. Remove contaminated clothing. First aid personnel must be aware of own risk during rescue. Consult a physician. Show this safety data sheet to the doctor in attendance.

Inhalation
If breathed in, move person into fresh air. If not breathing, give artificial respiration. Keep patient warm. Consult a physician.

Ingestion
Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with penty of water. Consult a physician

Skin contact
Instantly wash off and rinse thoroughly with soap and plenty of water. Consult a physician

Eye contact
Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician

4.2 Most important symptoms and effects, both acute and delayed
The most important known symptoms and effects are described in the labelling (see section 2.2) and or in section 11.

4.3 Indication of any immediate medical attention and special treatment needed
SECTION 5: FIRE-FIGHTING MEASURES

5.1 Extinguishing media
Suitable extinguishing media
Alcohol-resistant foam. Dry powder.
Unsuitable extinguishing media for safety reasons: water jet

5.2 Special hazards arising from the substance or mixture
Harmful vapours. Carbon dioxide

5.3 Advice for firefighters
Wear self-contained breathing apparatus for firefighting if necessary

5.4 Further information
No data available

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures
Use personal protective equipment. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas. Avoid breathing dust. For personal protection see section 8.

6.2 Environmental precautions
Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

6.3 Methods and materials for containment and cleaning up
Wipe up with inert absorbent material and disposal of as hazardous waste. Keep in suitable, closed containers for disposal.

6.4 Reference to other sections
For disposal see section 13.

SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling
Avoid contact with skin and eyes. Avoid inhalation of vapour or mist. For precautions see section 2.2.

7.2 Conditions for safe storage, including any incompatibilities
Store in cool place. Protect from the effects of lights. Keep container tightly closed in a dry and well-ventilated place. Kept upright to prevent leakage.

7.3 Specific end use(s)
Apart from the uses mentioned in section 1.2 no other specific uses are stipulated

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters – Components with workplace control parameters
No occupational exposure limits known.

8.2 Exposure Controls

Protective equipment

Appropriate engineering controls
Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

Eye/face protection
Use approved safety glasses with side shields. Eyewear complying with an approved standard should be worn if a risk assessment indicate eye contact is possible. The following protection should be worn: Chemical splash goggles or face shield.

Hand protection
Handle with gloves. Gloves must be inspected prior to use. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it. Wear protective gloves made of the following material: Nitrile rubber. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. Use proper glove removal technique (without touching glove’s outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Other skin and body protection
Wear appropriate clothing to prevent any possibility of liquid contact and repeated or prolonged vapour contact

Hygiene measures
Do not smoke in work area. Wash hands thoroughly after handling. Promptly remove any clothing that becomes contaminated. When using do not eat, drink or smoke. Contaminated clothing should be placed in a closed container for disposal of decontamination. Warn cleaning personnel of any hazardous properties of the product.

**Respiratory protection**
If ventilation is inadequate, suitable respiratory protection must be worn. Wear a respirator fitted with the following cartridge: Combination filter, type A2/P3. In confined or poorly ventilated spaces, a supplied air respirator must be worn.

**Control of environmental exposure**
Prevent further leakage or spillage if safe to do so. Do not let product enter drains.

### SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

#### 9.1 Information on basic physical and chemical properties

<table>

</tbody>
</table>

#### 9.1 Other information
No data available

### SECTION 10: STABILITY AND REACTIVITY

#### 10.1 Reactivity
No data available

#### 10.2 Chemical stability
Stable under recommended storage conditions. Stable at normal ambient temperatures.

#### 10.3 Possibility of hazardous reactions
The product can polymerize if the shelf life or storage temperature are greatly exceeded. Heat develops during polymerization. Reacts with strong oxidizing agents.

#### 10.4 Conditions to avoid
See section 7 – Handling and storage

#### 10.5 Incompatible materials
Strong oxidizing agents, Strong reducing agents, Strong acids, Strong alkalis, Free radical initiators

#### 10.6 Hazardous decomposition products
Does not decompose when used and stored as recommended. Other decomposition products - no data available
In the event of fire - see section 5

### SECTION 11: TOXICOLOGICAL INFORMATION

#### Acute toxicity:
LD50 rat (oral): > 2500 mg/kg
This product has not been tested. The statement has been derived from the properties of the individual components.

#### Skin corrosion/irritation:
Causes severe skin burns.
This product has not been tested. The statement has been derived from the properties of the individual components.

#### Eye damage/eye irritation:
Causes severe eye damage.
This product has not been tested. The statement has been derived from the properties of the individual components.
Respiratory or skin sensitization:
May cause an allergic skin reaction.
This product has not been tested. The statement has been derived from the properties of the individual components.

Germ cell mutagenicity: No data available

Carcinogenicity: No data available

Reproductive toxicity: No data available

Specific target organ toxicity – single exposure: No data available

Specific target organ toxicity – repeated exposure: No data available

Aspiration hazard: No data available

Signs and Symptoms of Exposure: No data available

Additional Information: No data available.

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity
Do not empty into drains, soil or bodies of water. Toxic to aquatic life.

12.1 Toxicity
LC50 (96h): >1 - ≤10 mg/L,
Fish The product has not been tested. The statement has been derived from the properties of the individual components.
EC50 (72h): >1 - ≤10 mg/L, algae
The product has not been tested. The statement has been derived from the properties of the individual components.
EC50 (48h): >10 - ≤100 mg/L, daphnia
The product has not been tested. The statement has been derived from the properties of the individual components.

12.2 Persistence and degradability
no data available

12.3 Bioaccumulative potential
no data available

12.4 Mobility in soil
no data available

12.5 Results of PBT and vPvB assessment
no data available

12.6 Other adverse effects
no data available

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

General Information
When handling waste, the safety precautions applying to handling of the product should be considered. Do not dump into any sewers, on the ground, or into any body of water. Not to be disposed of together with household waste. Any disposal practice must be in compliance with all local and national laws and regulations. Handle and dispose contaminated packages in the same way as the product itself. Fully cured product residues are generally not regarded as hazardous waste.

Disposal methods
Burn in a chemical incinerator equipped with an afterburner and scrubber but exert extra care in igniting as this material is highly flammable. Offer surplus and non-recyclable solutions to a licensed disposal company.

Contaminated packaging
Dispose of as unused product.

SECTION 14: TRANSPORT INFORMATION

14.1 UN number

<table>

</tbody>
</table>

14.6 Special precautions for user

Read safety instructions, SDS and emergency procedures before handling

SECTION 15: REGULATORY INFORMATION

This safety datasheet complies with the requirements of Regulation (EC) No. 1907/2006.

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

no data available

15.2 Chemical Safety Assessment

no data available

SECTION 16: OTHER INFORMATION

General Information

The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. The information in this document is based on the present state of our knowledge and is applicable to the product with regard to appropriate safety precautions. It does not represent any guarantee of the properties of the product. Employers should use this information only as a supplement to other information gathered by them, and should make independent judgement of suitability of this information to ensure proper use and protect the health and safety of employees. This information is finished without warranty and any use of the product not in conformance with this Material Safety Data Sheet, or in combination with any other product or process, is the responsibility of the user.

This is an experimental product. This safety data sheet is for product trials only!

Hazard statements in full

H302 – Harmful if swallowed.
H319 – Causes serious eye irritation.
H315 – Cause skin irritation.
H317 – May cause an allergic skin reaction.
H335 – May cause respiratory irritation.
H361f – Suspected of damaging fertility
H411 – Toxic to aquatic life with long lasting effects.
